Vipin Garg Website — Competitive Improvement Plan

Nov 2, 2026 · @RealtyGenie

Executive summary

The client can beat both competitors by being the only one that combines **live classes with a named CFA charterholder** and **measurable exam readiness** — but the current build must first stop reading like a copy of Business Career College (BCC).

Where each player stands today

- **BCC** sells self-paced, software-led prep. Its edge is ReadyEngine™: a diagnostic, an adaptive study plan and a readiness score, backed by a conditional pass guarantee and a free trial. Its weakness is that it has no live teaching beyond a paid Office Hours add-on, and several programs still sit on a separate legacy platform.
- **SeeWhy Learning** sells study tools (condensed guides, flashcards, quizzes, videos) for 30+ exams, with a "Don't pass, don't pay" guarantee, corporate discounts, upsells and CE bundles. Its weaknesses are a 40-card wall instead of a finder, no hero CTA, a popup on landing, a blog last updated in 2022, it discourages phone study, and its live site even lists lorem-ipsum test products.
- **The client** has one asset neither competitor has: live, instructor-led cohorts taught by Vipin Garg. Right now that asset is buried under template copy, borrowed branding, dead links and a checkout that only leads to a contact form.

Winning position: *"Learn live from a CFA charterholder, practise smart between classes, and know you're ready before you book."*

Top 10 moves, in order

1. Remove every trace of BCC branding, copy, email, history and trademarks (section 1).
2. Fix broken pages (/securities, /events, /digital-assets) and every `#` link.
3. Put real, current intake dates, seat counts and one consistent price per course on the site.
4. Replace "Add to cart → contact form" with real online checkout (Stripe), instalments and an account area.
5. Add a free diagnostic / practice test as the main lead magnet (beats BCC's trial and SeeWhy's ebook).
6. Build an exam finder and a CIRO / LLQP pathway selector instead of card walls.
7. Add a live-plus-practice readiness score and a clear, conditional pass guarantee.

8. Make Vipin the face of the brand: real bio, credentials, video intro, free monthly live masterclass.
9. Publish verified Google reviews and real pass-rate data; no unsubstantiated claims.
10. Add a For Firms section, bundles, CE / renewal offers and French pages in later phases.

1. Critical fixes on the current build (do before launch)

The current frontend reuses a large amount of BCC's wording, structure and identity, which is a legal and trust risk, not just a polish issue. Found while crawling the site on 2 Nov 2026:

Page	Problem found	Fix
Every page (footer)	Copyright reads "© 2026 Business Career College"; footer cards say "BCC's industry-leading CFP® and QAFP™" and "BCC's LLQP and GLQP Programs"	Replace with the client's legal name and own copy
/contact	Email is info@businesscareercollege.ca; phone +1 (403) 555-0142 is a placeholder; "Calgary, Alberta" and MT hours	Real email, phone, address and timezone
/about	Tells BCC's story ("Since 1997", "from our beginnings in Alberta", "one of Canada's largest providers") and profiles "Jason Watt" as the instructor instead of Vipin Garg	Rewrite around Vipin: CFA charterholder, real years teaching, students taught, photo and video
Home vs About	Home says "over 25 years" and "over a decade"; About says since 1997	One true number everywhere
Home, Securities card	Mentions "ReadyEngine™", a BCC trademark	Remove; name the client's own platform features
/certified-digital-asset-advisor-designation and CDAA links	CDAA is BCC's designation (BCC itself lists it as legacy/sunset)	Remove unless the client genuinely owns a digital-asset program

Page	Problem found	Fix
/exam-prep-programs	"BCC's industry-leading programs"; only covers CFP/QAFP despite the generic name; every "Learn More" goes to /contact	Make it the real all-courses catalogue with filters
/exam-prep-programs cross-links	"LLQP / MFDA — Prepare for CIRO proficiency" and "CE COURSES — LLQP and GLQP" are mislabelled; MFDA merged into CIRO in 2023	Correct labels and targets
/life-license-qualification-program	"Why Choose BCC LLQP"; template filler ("Option B: Advanced Technical — high-level technical implementation and architecture", "land your dream job"); prices $799 / $499 / $299 / $199 conflict with $500 on the home page	Real LLQP module structure (Life, A&S, Seg Funds, Ethics), one price list
/insurance	"With BCC courses, you'll be incredibly well-prepared"; lists PQAP and Alberta GLQP, which need accreditation to deliver	Only list programs the client is accredited to teach
/certified-financial-planner	"Add to cart" and "Course Details" both go to /contact; Step 5 promises a CE platform that doesn't exist	Real checkout; remove unbuilt promises
Home course cards	All four show the same date (15 June '26, already past), 10 sessions and $500; CSC card says "In progress"	Pull dates, seats and prices from one data source; hide past intakes
Home testimonials	Reviews look like placeholders (garbled sentence in the second one)	Use only verified reviews (Google), with consent
Broken pages	/securities, /events (linked from "Book a consultation") and /digital-assets return errors	Build or redirect
Footer	CSE, ESE, A&S, About, Success Stories, Events, Blog, Contact and all three legal links point to `#`	Link or remove; Terms, Privacy and Refund pages are mandatory before taking payment
Mailing list	"Sign up" with no visible fields or consent	Email field + unchecked CASL consent checkbox

Page	Problem found	Fix
Claims	"High exam pass rates", "Canada's leader", "Industry-leading" have no evidence	Back each claim with data or drop it (Canada's Competition Act requires claims to be substantiated)
Meta	Every page shares one title and description	Unique title, description and OG image per page

Content check to make with the client: CIRO's new proficiency model took effect in January 2026, with CIRE and RSE replacing the old CSC/CPH route for many registrants. The home page leads with CSC Level 1 & 2; confirm who still needs CSC and lead with CIRE / RSE if that is where demand now is.

2. Side-by-side comparison

BCC wins on product technology, SeeWhy wins on catalogue breadth and sales mechanics; the client only wins on live teaching today.

Area	BCC	SeeWhy	Client today	Target for client
Teaching model	Self-paced on ReadyEngine™; Office Hours add-on ($100)	Self-study tools; tutoring $95/hour	Live cohorts by Vipin Garg	Live cohorts + recordings + practice platform
Programs	CIRE, RSE, bundle; LLQP modules; PQAP; GLQP; CFP / QAFP	~32 courses: CSI courses, CIRO exams, LLQP/PQAP, CE	CSC, IFC, CIRE, LLQP, CFP/QAFP (inconsistent)	Focused list the client can teach well
Prices (sample)	CIRE $600, RSE $600, bundle $1,150; LLQP $375; CFP $399 / $549	Success vs Success Plus tiers; à la carte; extensions	$500 everywhere on home, other prices on inner pages	Clear tiers per course + bundles
Free entry offer	Free trial (sticky top bar)	Free "Teaching Sample" questions; ebook popup	None	Free diagnostic test + free live masterclass

Area	BCC	SeeWhy	Client today	Target for client
Readiness / analytics	Diagnostic, adaptive plan, 5-level ReadyRating™	None (static tools)	None	Topic-level readiness score from quizzes and mocks
Guarantee	Full refund if you reach ReadyRating Level 5 and fail twice	"Don't pass, don't pay" on most programs	None	Conditional pass guarantee or free re-take of the next cohort
Course finder	CIRO pathway selector (role → exam)	40+ card grid; LLQP region selector	Category cards	Exam finder quiz + pathway selector
Checkout	Own signup and billing	WooCommerce cart, upsell modal, Stripe	"Add to cart" goes to contact form	Real checkout, instalments, upsells
Corporate	For Firms hub (CIRO, LLQP)	Corporate pricing (20% off), employer SKUs, full-support cohorts	Only a contact form option	For Firms page + group pricing + cohort reports
Content / SEO	Active blog (Sanity), long guides, rich schema	Video blog, last posts 2022	No blog	Weekly guides + short videos by Vipin
Social proof	"96% learner success rate on ReadyEngine™", 29 years	150k+ registrations, 97.7% success (refund-based), Google reviews widget, logo strip	3 unverified reviews	Verified reviews, real pass rates, video stories
Language	EN / FR (PQAP)	Full EN / FR mirror	EN	EN first; FR when PQAP is offered

Area	BCC	SeeWhy	Client today	Target for client
Mobile study	Modern responsive	Discourages phones	Responsive marketing site	Mobile-first study + class links

3. Features to cherry-pick

Take BCC's readiness and clarity tools and SeeWhy's sales mechanics, then fix the weaknesses each one has.

From BCC

Feature	How it works at BCC	How the client should do it
Free trial in a sticky top bar	"NEW: Prepare for CIRE or RSE exams — Start Free Trial" on every page	Top bar for the next intake: "CIRE cohort starts 12 Jan — 8 seats left · Try a free class"
Diagnostic → adaptive plan → readiness score	ReadyEngine™ and ReadyRating™ (5 levels, five performance signals)	Start simple: a diagnostic quiz, topic mastery grid and a readiness % from quizzes and mocks; Vipin reviews it live
Conditional pass guarantee	Refund if you finish all lessons, hit Level 5 and fail two attempts	Attend 80% of classes + complete all mocks above a set score → free seat in the next cohort or refund
Product preview on the home page	Shows a mock "Today's study plan" and concept-mastery grid	Show the real student dashboard and a 60-second class clip
CIRO pathway selector	Role → which exam(s) you need	"I want to be a… (IR / RR / mutual fund rep / life agent / planner)" → recommended courses
LLQP licensing process page	5 steps from course to provincial exam	Same, plus where Vipin's course fits and typical timelines

Feature	How it works at BCC	How the client should do it
Module → course matrix	Common Law vs Civil Code, A&S only, Ethics top-up	Simple table so learners buy only what they need
Bundles	CIRE + RSE bundle at $1,150 vs $1,200 separately	CIRE + RSE, LLQP Life + A&S, CFP live + on-demand
For Firms hub	Enterprise solutions, CIRO and LLQP for enterprise	Group cohorts, progress reports to managers, custom schedules
Long-form guides + rich schema	Sanity blog, 9–17 minute guides, Course / FAQ / Breadcrumb schema	Same, written by Vipin, plus short videos
Accreditations page	Lists approvals	Show any accreditation, CFA charter and approvals honestly

From SeeWhy

Feature	How it works at SeeWhy	How the client should do it
Stat strip	Founded 2008, 150k+, 32 courses, 97.7%	Real numbers only: students taught, years teaching, first-attempt pass rate (with method)
Money-back guarantee badge	"Don't pass, don't pay" with its own page	Guarantee badge on every course card and price box, linking to plain-English conditions
Corporate discount banner	"Do you work for a Canadian financial institution? Do I qualify?" → 20% off	"Studying through your employer? Check group pricing"
Free interactive sample	Teaching Sample with free questions	Free 15-question diagnostic per exam, emailed score report
Package tiers with tooltips	Success Package vs Success Plus; "?" tooltips explain each tool	Live / Live+ / On-demand tiers; tooltip on every inclusion

Feature	How it works at SeeWhy	How the client should do it
Upsell modal at Buy Now	Upgrade, printed guide, live running total	Add mock-exam pack, 1-on-1 session, printed notes, extension
"Who is this for" + "Skills you'll learn"	On every product page	Same, plus syllabus by session and exam-blueprint weighting
Sibling cross-link	"Looking for CSC Exam 2?"	"Taking RSE next? Save with the bundle"
Lead magnet popup	Free "Top 10 Trainer Tips" ebook with CASL consent	Delayed, exit-intent version (section 6)
Reviews widget + logo strip	Google reviews carousel; TMX, CIBC, RBC logos	Verified Google reviews; employer logos only with permission
Add-ons	Tutoring $95/hour, 30/90-day extensions	1-on-1 with Vipin, extra mock packs, recording access extensions
CE partner bundles ("stay licensed")	CE Quick Picks via C'Life with 20% code	Phase 3: CE / renewal partner for alumni
LLQP region selector	Pick region, confirm irreversible choice, products filter	Common Law vs Quebec toggle on the LLQP page
Bilingual site	Full /fr/ mirror	Later, only if French courses are offered

What to do better than both

- **No card walls.** A 3-question exam finder replaces SeeWhy's 40-card grid.
- **CTA in the hero** and a popup only after engagement (SeeWhy fires on landing).
- **One login, one platform.** BCC splits learners across two logins by enrolment date; SeeWhy across two sites.
- **Honest metrics.** SeeWhy's 97.7% is a refund ratio, and its FAQ says courses are non-refundable while it advertises a guarantee. Publish first-attempt pass rates with sample size.
- **Mobile-first study.** SeeWhy tells students not to use phones.
- **Fresh content.** SeeWhy's videos stop in 2022; publish weekly.

- **No test junk in production.** SeeWhy lists lorem-ipsum "Premium Quality" products on its live home page; keep staging data out of the catalogue.

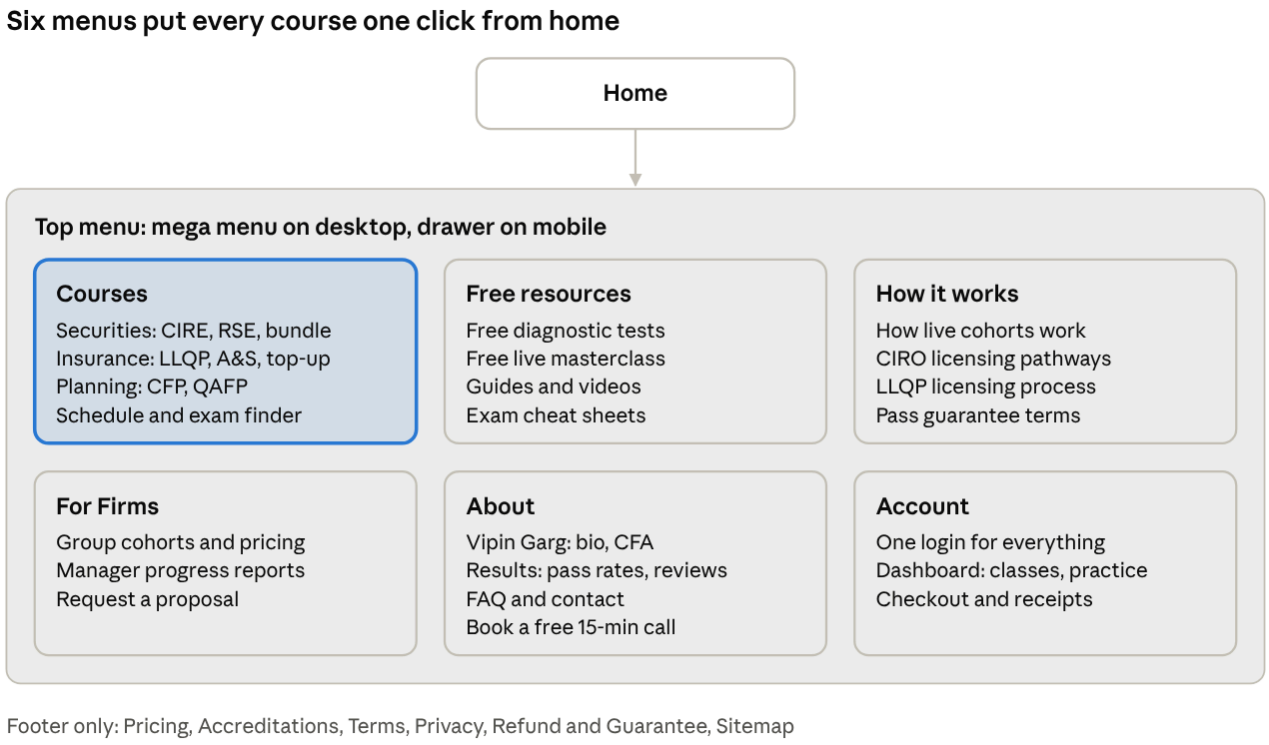

4. Differentiators only the client can offer

Neither competitor has a recognisable teacher at the centre; making Vipin the product is the strongest moat.

- **"Learn live with Vipin" cohorts.** Small groups, fixed schedule, seats counter, every session recorded. Positioned against BCC's $100 Office Hours add-on and SeeWhy's $95/hour tutoring.
- **Free monthly live masterclass.** A 45-minute session per exam ("5 CIRE traps that fail people"). Registration is the main lead capture; replay goes into the email nurture.
- **Free diagnostic + personal study plan.** The score report recommends a cohort and offers a 15-minute call.
- **Readiness review with a human.** Before the exam, Vipin reviews each learner's mock results in a group session. BCC's score is software-only.
- **Study community.** Private group (WhatsApp, Discord or Circle) per cohort for questions between classes.
- **Hybrid choice on every course.** Live, Live + on-demand, or On-demand only, in one price box.
- **Exam-date planner.** Learner enters their exam date; the site recommends which cohort to join and generates a calendar file.
- **Instalments.** 2–3 payments at checkout (Stripe or Affirm) to lower the entry price.
- **Founder-led content.** Short weekly videos and guides by Vipin, built on his CFA background (CIRE, RSE, CFP topics).
- **Pass wall.** Opt-in list of alumni who passed, with exam and date, refreshed every cohort.

5. Recommended site map

Organise by exam and by learner goal, with Courses as the money path; this borrows BCC's clean hub structure and drops SeeWhy's duplicated menus.

recommended site map · 6 top-level menus

Suggested URLs: `/securities/cire/`, `/securities/rse/`, `/securities/cire-rse-bundle/`, `/insurance/llqp/`, `/insurance/llqp/accident-sickness/`, `/financial-planning/cfp/`, `/financial-planning/qafp/`, `/schedule/`, `/free-diagnostic/<exam>/`, `/masterclass/`, `/guides/`, `/how-it-works/`, `/licensing-pathways/ciro/`, `/licensing-pathways/llqp/`, `/guarantee/`, `/for-firms/`, `/about/`, `/results/`, `/faq/`, `/contact/`, `/pricing/`, `/login/`, `/checkout/`. Redirect every old URL (for example `/life-license-qualification-program`) to its new home.

6. Pop-ups, overlays and lead capture

Use a few well-timed, useful overlays instead of SeeWhy's instant popup; never show more than one modal per session.

Element	Trigger	Offer	Rules
Announcement bar (sticky top)	Always, dismissible	Next intake date + seats left, or free masterclass date	Real dates only; auto-hide when the intake closes
Exam finder (inline + modal)	Hero button "Find my course"	3 questions: goal role, province, exam date → recommended course	Result page has course, price, next cohort and "Talk to Vipin"

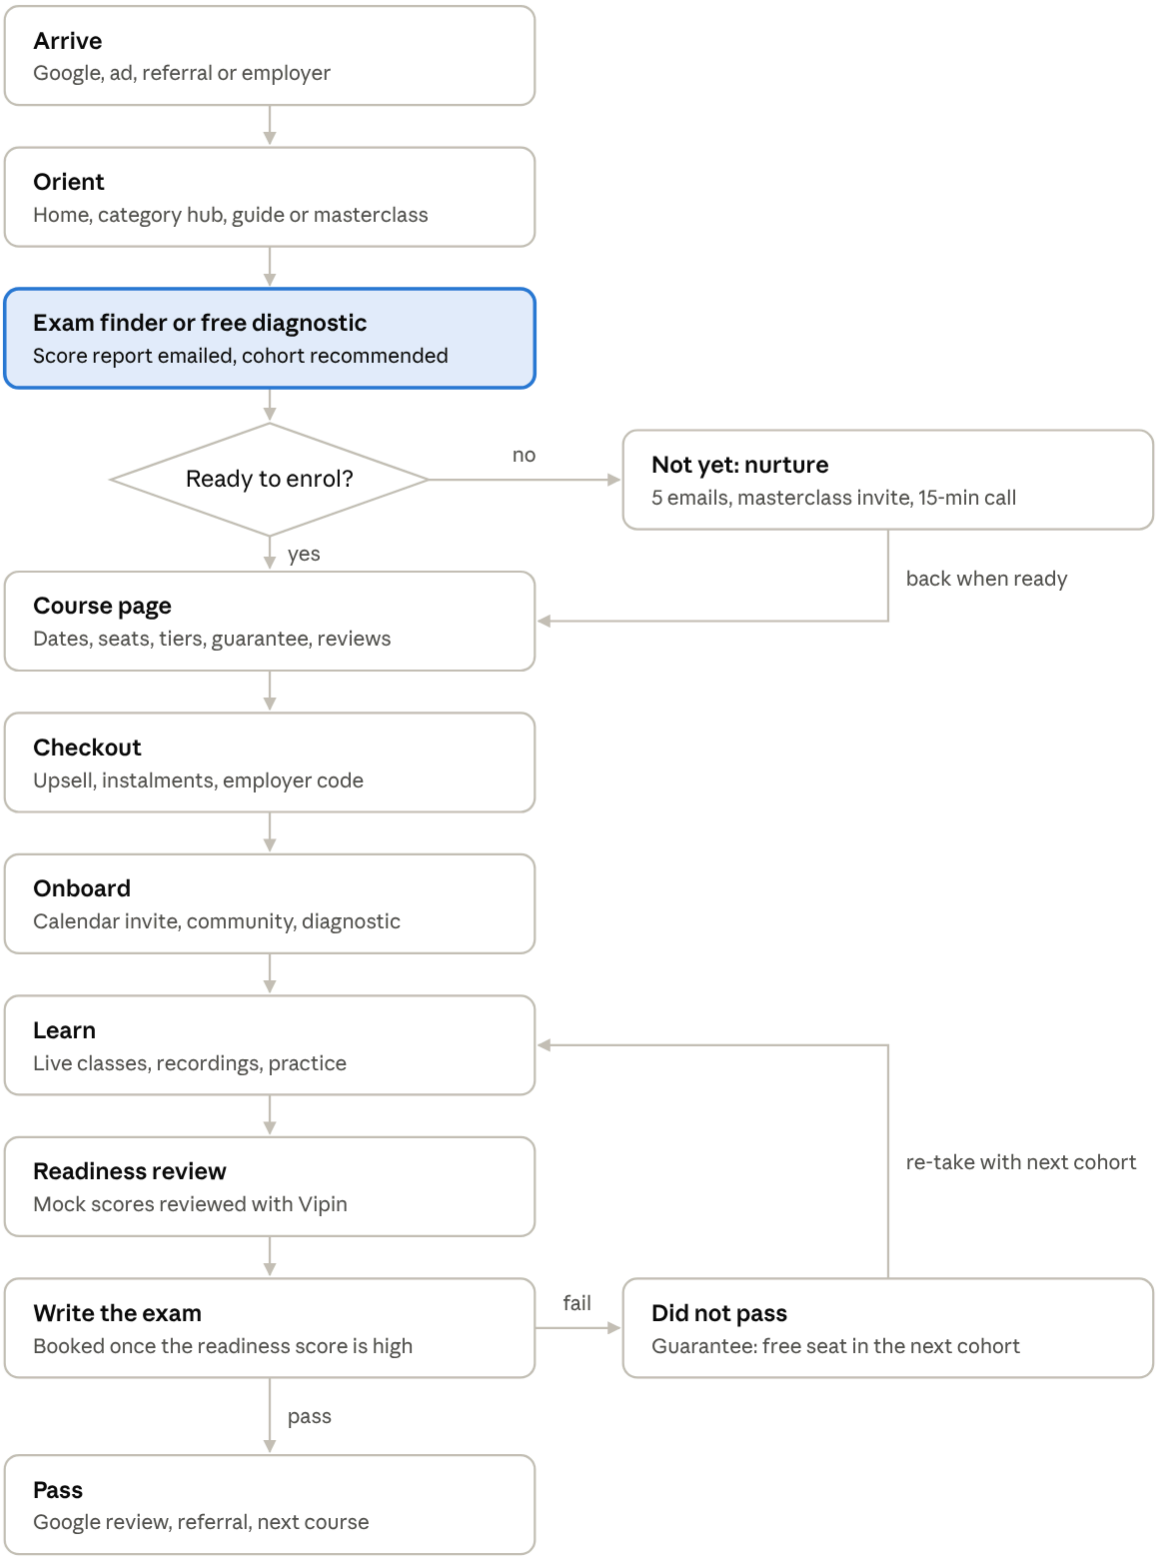

Element	Trigger	Offer	Rules
Free diagnostic slide-in	After 50% scroll on a course page, or 45 seconds	"Check your readiness for CIRE — 15 questions, free"	Not on checkout; not again for 7 days once closed
Exit-intent modal (desktop) / back-button sheet (mobile)	Cursor leaves to close, or scroll-up fast on mobile	Free masterclass seat or exam cheat-sheet PDF	Once per 14 days; email + unchecked CASL consent
Corporate banner (inline)	On course pages	"Studying through your employer? Group pricing"	Links to For Firms form
Upsell modal	Click "Enrol"	Bundle the next exam, extra mock pack, 1-on-1 session	Live total; one-click "No thanks, continue"
Seat-scarcity badge	Course card and price box	"6 of 25 seats left"	Pulled from real enrolment data; never faked
Sale countdown	Only during a real promo	"Early-bird ends 30 Nov"	Must actually end; no rolling timers (misleading under the Competition Act)
Chat widget	After 20 seconds on pricing or course pages	"Questions about which exam? Ask us"	Hand-off to WhatsApp or email outside hours
Cart / checkout abandonment	Email 1 hour and 24 hours after leaving checkout	Reminder + answer to top objection	Only with consent captured at account creation
Review / referral prompt	After a learner reports a pass	Leave a Google review; give a friend $50 off	Never gate rewards on a positive review

Lead magnets, ranked by expected value: free diagnostic test, free live masterclass, exam cheat-sheet PDF, newsletter. Every form gets a separate, unchecked consent box under Canada's anti-spam law (CASL).

7. User flows and funnels

The main funnel replaces "contact us" with a self-serve path to a paid seat, and every non-buyer is caught by a nurture loop instead of leaving.

The free diagnostic decides who enrols now and who is nurtured

individual learner funnel · 1 decision, 2 loops

The free diagnostic is the hinge: it gives the visitor a reason to leave an email and gives the client the data to recommend the right cohort.

Secondary flows to build

1. **Confused CIRO candidate** (from SeeWhy's pathway journey): search "CIRE or RSE, which do I need?" → pathway selector → recommended course or bundle → free diagnostic → enrol.
2. **Insurance recruit** (agency-referred): agency link with employer code → LLQP page with Common Law / Quebec toggle → module picker → checkout at group price → progress shared with the agency.
3. **Firm buyer**: For Firms page → short qualifying form (team size, exams, timeline) → booked call → proposal → private cohort with manager reports.
4. **Not-ready visitor**: exit-intent offer → masterclass or cheat sheet → 5-email series by exam → next-intake reminder 7 days before the start.
5. **Alumni**: pass → review and referral → next exam in the pathway (CIRE → RSE, LLQP → A&S, QAFP → CFP) → later, CE / renewal offers.

8. Page-by-page UI/UX improvements

Every page should answer three questions above the fold: what is this, when does it start, and what does it cost.

Home

1. Hero: one promise, Vipin's photo, two CTAs ("Find my course", "Try a free class"), next-intake chip.
2. Trust strip: real stats + CFA charterholder badge + Google rating.
3. Exam finder (inline) instead of category cards.
4. Upcoming cohorts: date, days/time, seats left, price, "Reserve seat".
5. "How you'll pass": live class → practice → readiness check → exam, with a 60-second video.
6. Dashboard preview (readiness score, mastery grid), cherry-picked from BCC's home page.
7. Guarantee block.
8. Verified reviews + pass wall.
9. Free masterclass sign-up.
10. FAQ (8–10 questions, FAQPage schema).
11. For Firms teaser and footer.

Course page template

- Sticky price box (desktop right rail, mobile bottom bar): tier selector, next cohort, seats, instalments, guarantee, "Enrol".
- Sections: who it's for, outcomes, session-by-session syllabus, exam blueprint weighting, what's included (with tooltips), schedule calendar, instructor, reviews for this exam, FAQs, sibling / bundle cross-sell.
- Free diagnostic for this exam embedded mid-page.
- Breadcrumbs and Course schema with price, dates and provider.

Category hubs (Securities, Insurance, Financial Planning)

- Pathway explainer (BCC style) at the top, then course cards with real dates and prices, then a comparison table of tiers.
- LLQP hub: Common Law / Quebec toggle (SeeWhy's region selector, minus the irreversible-choice friction) and a module matrix.

Checkout and account

- 2-step checkout: account + payment (Stripe, Apple Pay / Google Pay, instalments, promo or employer code).
- Upsell modal before payment, not after.
- Instant confirmation page with calendar invite, community link and "start your diagnostic".
- One student dashboard: class links, recordings, practice, readiness score, receipts.

Global

- Mega menu by exam, with search.
- Mobile: bottom sticky "Enrol" bar on course pages; tap-to-call and WhatsApp.
- Accessibility: WCAG 2.1 AA contrast, focus states, alt text, captions on videos.
- Speed: Next.js image optimisation (already in use), target Largest Contentful Paint under 2.5 s on mobile.

9. Martech, SEO and trust setup

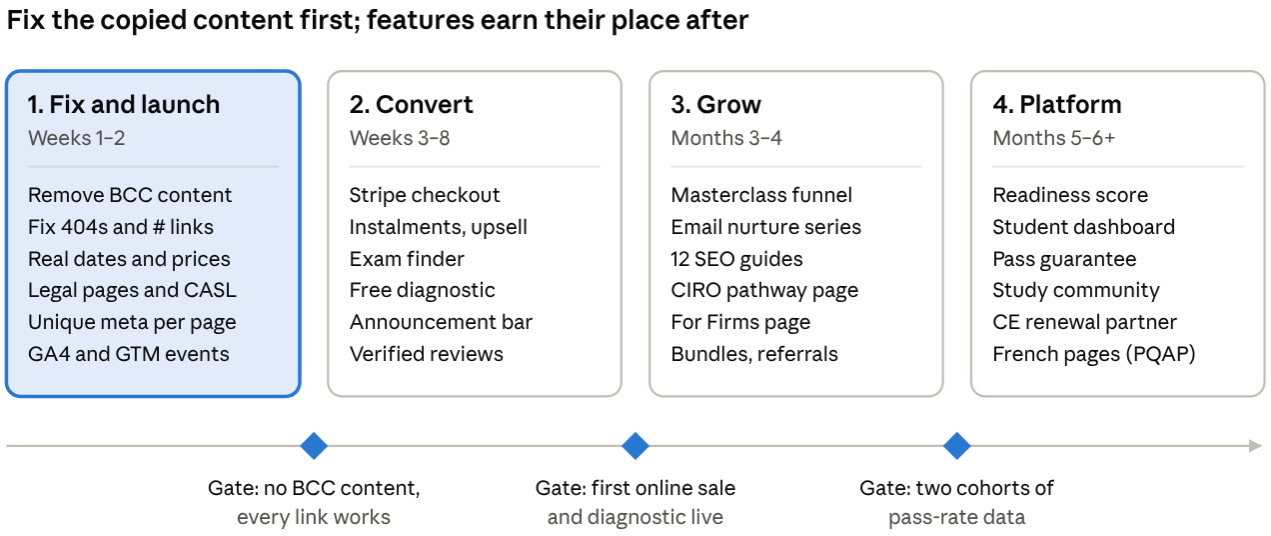

Match BCC's stack (it is the stronger of the two) and add what both are missing: booking, payments with instalments and event tracking tied to revenue.

Area	Recommendation	Competitor reference
Framework	Keep Next.js on Vercel	BCC: Next.js + Tailwind
CMS	Headless CMS (Sanity or similar) for courses, cohorts, blog, FAQs, reviews — one source for dates and prices	BCC: Sanity
Analytics	GA4 via Google Tag Manager; events for finder completed, diagnostic started/finished, enrol clicked, checkout, purchase	BCC: GTM
Ad pixels	Meta, LinkedIn Insight, Google Ads; consent-gated	BCC: Meta, LinkedIn, Microsoft UET
Email	Drip, Klaviyo or ConvertKit with nurture by exam	BCC: Drip; SeeWhy: HelloCRM
Booking	Cal.com or Calendly for the free 15-minute call (fixes the broken /events link)	Neither offers it
Payments	Stripe with Apple Pay / Google Pay and instalments; employer promo codes	SeeWhy: Stripe via WooCommerce
Reviews	Google Business Profile + widget; request after each pass	SeeWhy: Trustindex; BCC: CommonNinja
Chat	Crisp, Intercom or WhatsApp Business	BCC: Freshchat-style
Structured data	EducationalOrganization, Course (with offers and course instances), Person (Vipin), FAQPage, BreadcrumbList, Review	BCC uses most of these
Meta	Unique title / description / 1200×630 OG image per page; en_CA locale	BCC
Sitemap / robots	XML sitemap with lastmod; noindex staging (the vercel.app domain)	BCC
Legal	Terms, Privacy (PIPEDA), Refund + Guarantee terms, cookie consent	Both have these; client links are `#`
Trademarks	Use ® / ™ correctly for CFP®, QAFP™ (FP Canada) and CSI course names; add a "not affiliated with" disclaimer	SeeWhy's footer disclaimer

SEO content plan (first 12 articles): "CIRE vs RSE: which do I need?", "CIRO proficiency changes 2026 explained", "How hard is the CIRE exam?", "LLQP pass rate and how to prepare", "LLQP Common Law vs Quebec", "A&S module guide", "CFP exam study schedule", "QAFP vs CFP", "Financial calculator tips", "How long to study for RSE", "Mutual fund licence in Canada", "Career path: from IR to RR".

10. Phased roadmap

Phase 1 is non-negotiable before any public launch or ad spend; each later phase starts only when the gate before it is met.

phased roadmap · 4 phases, 3 gates

The readiness score and guarantee sit last because they need real cohort data to set fair thresholds; until then, offer the simpler "free seat in the next cohort" promise.

Open questions for the client

- Which programs is the client accredited or approved to deliver (LLQP needs an approved provider; PQAP and GLQP have their own rules)?
- Real numbers: students taught, years teaching, first-attempt pass rate and how it was measured.
- Next intake dates, class days and times, seat limits and final prices per tier.
- Is CSC / IFC still a core product after the 2026 CIRO changes, or should CIRE / RSE lead?
- Which employers or agencies already send students, and may their logos be shown?

Sources

- Client site — home, About, Contact, Insurance, LLQP, Exam prep programs, Financial planning, CFP, CDAA — crawled 2 Nov 2026; /securities, /events and /digital-assets returned errors
- Business Career College home page, checked 2 Nov 2026
- SeeWhy Learning home page, checked 2 Nov 2026
- Competitor study PDFs supplied by the team (BCC and SeeWhy site maps, pricing, funnels, martech)
